## POINT 2

# Excellent Gyeonggi-do Ginseng

### Check 1.

An Outstanding Members Union of the Ginseng Agricultural Cooperative Federations in Gyeonggi Province

—  
Reliable 100% Korean ginseng that you can trust

### Check 2.

Gyeonggi Province as the best ginseng cultivation area

—  
Optimal cultivation sites and planned management against heavy metal in soil for 1–2 years

### Check 3.

Nature-friendly microbial agents instead of chemical pesticides

—  
It's also considered the best ginseng grown in Gimpo Paju, where fertile soil, cool temperatures, and daily temperature range are large.

POINT 3

## **Ginseng of Nonghyup (National Agricultural Cooperative)**

**”52 years of trust, we can believe Nonghyup”**

The added ginseng is made of Goryeo ginseng, which is directly contracted and grown by Nonghyup, and has been certified as a global GAP certification system for excellent management of international agricultural products.

# Systematic Production Management System

This is how to manufacture our V-Drink

## 1. Selection of ginseng cultivated land

Excellent ginseng union members of the Agricultural Cooperative Federation, investigation of soil heavy metal contamination, selection of optimal cultivation sites, Implementation of planned site management for one to two years.

## 2. Expert production guidance

Through professional cultivation guidance from ginseng cultivation instructors, systematic management from planned site management to purchase. Best ginseng production based on care.

### **3. Purchasing Ginseng in V-drink**

Ginseng subject to purchase is secured first through residual pesticide inspection by the state-run inspection agency, and when harvesting, the Nonghyup is present to certify lotus roots, and purchases are carried out through professional inspectors.

### **4. Product production in V-drink**

Manufactured by HACCP and GMP certified factories and manufactured by low-temperature extraction and reduced-pressure concentration method that minimizes destruction of nutrients such as ginsenoside.

### **5. Quality inspection V-drink**

The ginseng agricultural cooperative Inspection Office conducts quality inspection of products, applies and manages the cooperative's quality management system in a strict and systematic manner.
