About us

Clavis

: It means 'Key' in Latin.

Clavis Energetic connects the physical force of magnets with the body's natural circulation.

- Providing wellness solutions based on the scientific efficacy of neodymium magnets
- Realizing "Balance + Beauty" through human-centered design and sustainable materials
- A global healthcare brand that stimulates the body's natural energy and proposes a harmonious life

ICONICS

Brand Vision

Clavis Energetic aims to grow as a wellness tech brand that restores balance to the body and mind through invisible magnetic energy.

Based on scientific evidence, we help people around the world achieve a healthy lifestyle that lives in harmony with the rhythm of nature.

Brand Mission

The mission of Clavis Energetic is "Science into Emotion, Energy into Everyday Life."

We deliver the physical energy of neodymium magnets in a comfortable and refined form through human-centered design and premium materials.

Through this, what users experience is not merely the product's effectiveness, but balance in life Balance, energy, and confidence.

Product Philosophy

Clavis Energetic is manufactured in GMP-certified medical device production facilities in accordance with strict quality standards. Each product is evaluated based on medical safety, biocompatibility, and reproducibility of efficacy.

01 GMP Certified Manufacturing

Production management suitable for medical devices

02 Premium Materials

Use of premium materials such as 316L stainless steel, titanium, and neodymium (NdFeB) magnets

03 Scientific Validation

Based on research into improving bodily circulation and magnetic balance

Health care Line-up

CLAVIS medical devices

Wearable products such as bracelets and necklaces

TROIKI small appliances

Functional devices such as massagers, waist belts, insoles, and supports

CALO OEM lineup

A wide range of lifestyle and healthcare products such as bracelets, necklaces, magnetic pillows, insoles, nasal dilators, and wrist supports

clavis

1. Premium healthcare jewelry

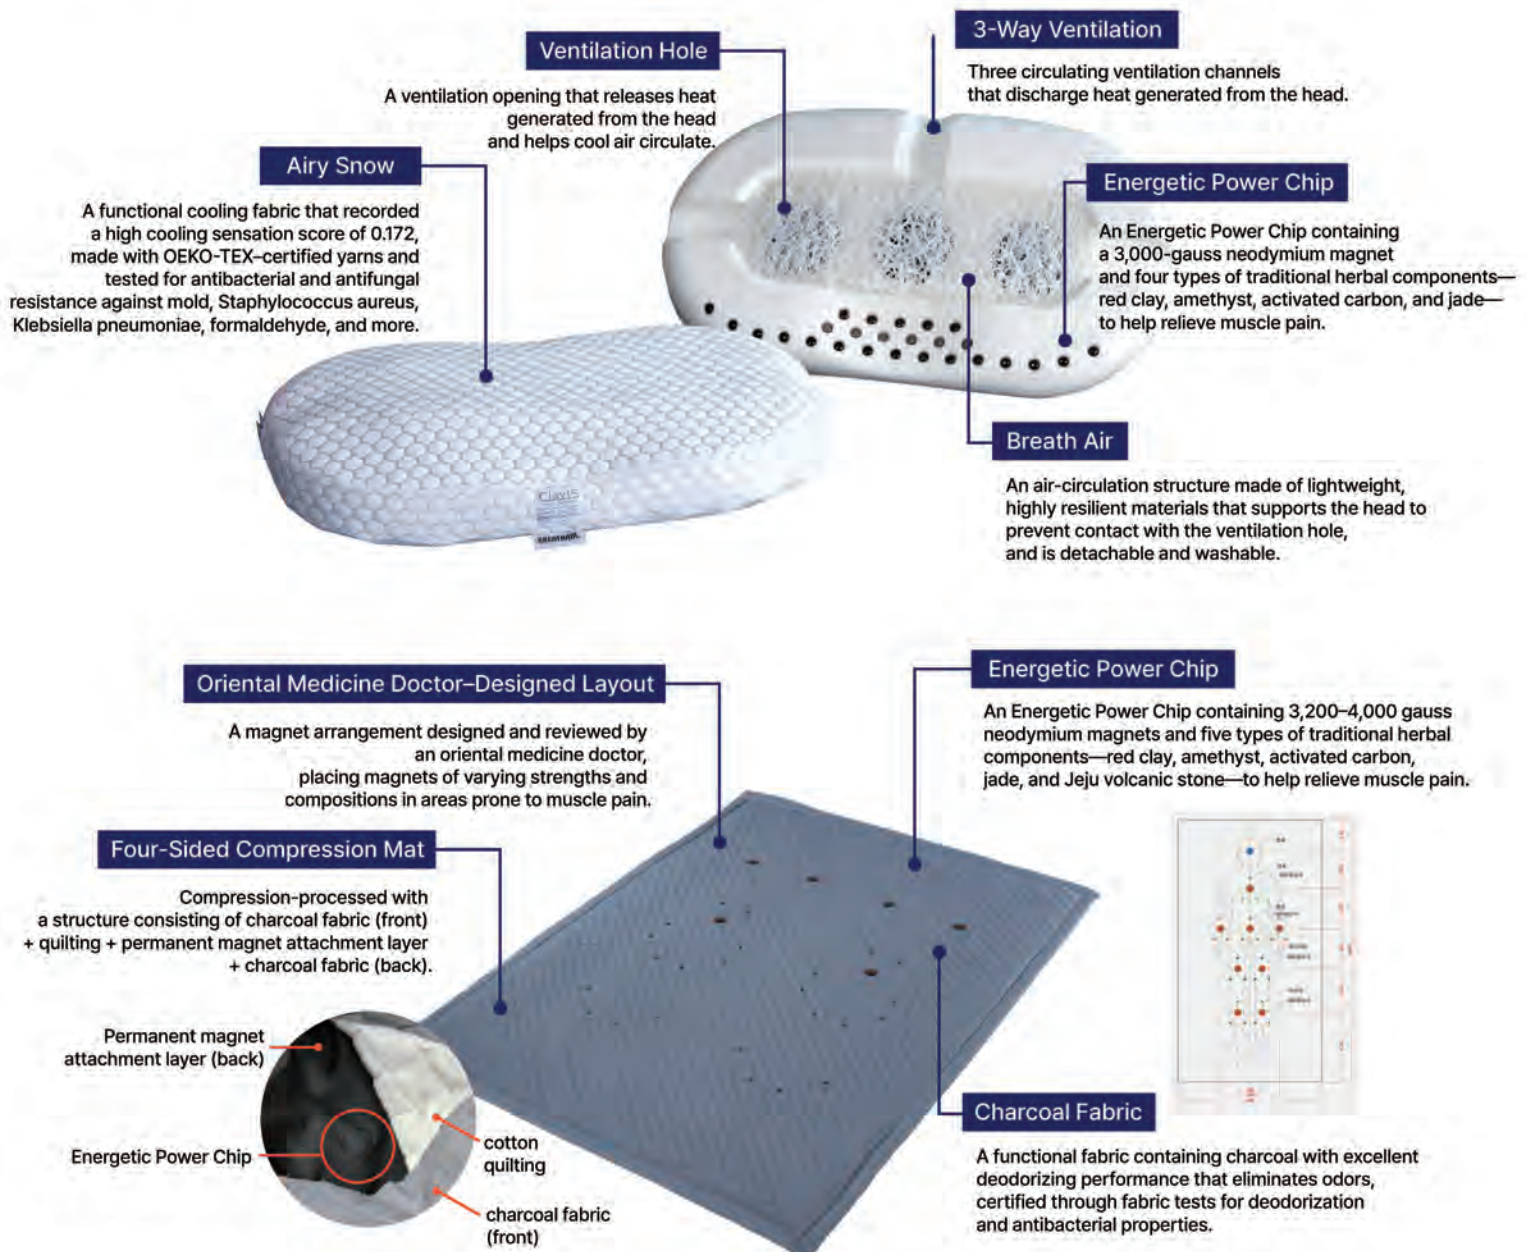

This is Clavis's signature line that combines fine jewelry craftsmanship with ergonomic healthcare technology. Based on body-safe metals and neodymium materials, it is designed to allow users to experience functionalities such as muscle pain relief, far-infrared emission, and improved blood circulation in everyday life.

2.Clavis Premium Healthcare Bedding Line

Clavis's healthcare technology is fully incorporated into the space that marks the beginning and end of each day. By combining high-density functional materials with optimally calibrated neodymium magnetic fields, the products are designed to help relieve muscle pain, induce deep sleep, relax muscles, improve blood circulation, and ease tension.

The magnetic mattress and magnetic pillow evenly distribute body pressure, provide a comfortable sleeping environment, and support fatigue recovery as Clavis's own premium wellness bedding solution.

3.Clavis Golf Line

The Clavis Golf Line is a golf-specific lineup designed to maintain optimal condition and enhance performance on the course.

Based on neodymium magnetic field technology and functional materials, it helps relieve muscle pain while supporting focus retention, improved swing stability, and increased driving distance, achieving both the mobility characteristic of sports gear and a premium design.

The golf belt and gloves provide comfortable wear along with optimal support and grip, while the dedicated bracelets and necklaces help maintain energy balance throughout the entire round as Clavis's exclusive healthcare golf solution.

Belt

Functions muscle pain relief, built-in magnets, water resistance for daily use, adjustable size

Features helps relieve muscle pain in the back, waist, and hips; easy to wear during exercise, driving, and work
Certified as a medical device by the Ministry of Food and Drug Safety (KFDA)

4.Clavis Smart Healthcare Massage Line

The Clavis Smart Healthcare Massage Line is a lineup of massage devices designed to more effectively relieve everyday tension and fatigue. By applying various technologies such as near-infrared, radio frequency, EMS, and vibration, it helps not only with muscle pain relief but also muscle relaxation, improved blood circulation, fatigue recovery, and overall condition management. The devices can be conveniently used anytime and anywhere—at home, in the office, or before and after exercise.

With a modern design and ergonomic structure, they remain comfortable even during extended use, serving as a premium home healthcare solution that completes the wellness lifestyle pursued by Clavis.

Massager

Functions muscle pain relief, built-in magnets, water resistance for daily use, adjustable size

Features helps relieve muscle pain in the back, waist, and hips; easy to wear during exercise, driving, and work
Certified as a medical device by the Ministry of Food and Drug Safety (KFDA)

Technology & Science

Patented Energetic Power Chip-based structure

- Maximizes muscle pain relief with a 3,200-gauss permanent magnet embedded in silicone
- Provides multiple benefits such as increased immunity, improved blood circulation, and enhanced basal metabolic rate
- Creates synergistic effects through the combination of the Energetic Power Chip and permanent magnets
